# SANDERO SANDERO

# JUST ESSENTIALS

Dacia Sandero fits better than ever with your lifestyle and desires. Its lines combine robustness and dynamism in a sleek and distinctive design. Stylish, practical, modern, it offers the essential equipment and comfort to make every journey a moment of pleasure.

LED DIPPED HEADLIGHTS

- (1) Rear bench seat folded down.
- (2) Available on Journey only.
- (3) Available from Expression version.

# THE POWER OF WHAT IS ESSENTIAL

Admire the style of Dacia Sandero, a combination of robustness and dynamic lines: simply stunning. Its front and rear Y-shaped brand light puts the finishing touches on a strong and modern identity. Its LED dipped headlights will light up the road at night like never before.

The black radiator grille with touches of white adds to its personality. The Sandero spirit that you enjoy so much is also found in the details, such as the glossy black door mirrors, the shark fin antenna and the 16" alloy wheels.

\*16" Randia alloy wheels are standard on the Journey version.

Rear Y-shaped brand light

# ALL YOU NEED IS WITHIN EASY REACH

From the moment you climb aboard thanks to the automatic remote opening, you feel comfortable in a welcoming and modern setting. Its panoramic dashboard combines elegance and efficiency.

The driver-focused dashboard provides easy access to all the functions: intuitive heating and air-conditioning system controls, built-in 8-inch multimedia screen with navigation and mirroring of the applications on your smartphone wirelessly, front and rear parking sensors<sup>(1)</sup>, as well as height-and depth-adjustable steering wheel. The electric parking brake will prove highly practical for daily use.

Instrument panel with digital display

(1) Available from expression version. Electric parking brake available on Journey only.

# TAKE CONTROL OF THE SPACE

Dacia Sandero perfectly adapts to your life. And it has the resources, with its large boot and rear folding bench seat, to adapt the space to your requirements. It also comes with a lot of storage space: cup holders, door bin, closed glovebox and storage console that perfectly meet your organisational requirements.

The generous width at the shoulders for the driver and the leg room for passengers in the rear provide optimum comfort. Sandero offers a decidedly warm welcome.

\*On Journey versions only.

# SELECT YOUR MULTIMEDIA PREFERENCES

Dacia Sandero has three comprehensive multimedia offers, so it's up to you to choose what you want: the clever new Media Control, controlled from your smartphone and integrated into the design of the dashboard, allows you to control the radio, music, Bluetooth® connection, USB and telephony.

Media Display adds voice recognition to its 8" touchscreen. Media Nav supplements its features with built-in navigation. Media Display and Media Nav are compatible with Android Auto<sup>TM</sup> and Apple CarPlay™ smartphone mirroring. It is available via a wired connection on Media Display and with Wi-Fi on Media Nav. You can also enjoy enhanced sound with six speakers located throughout the cabin, available on Media Nav.

Apple CarPlay™ is an Apple Inc. brand.

Android Auto™ is a trademark of Google Inc.

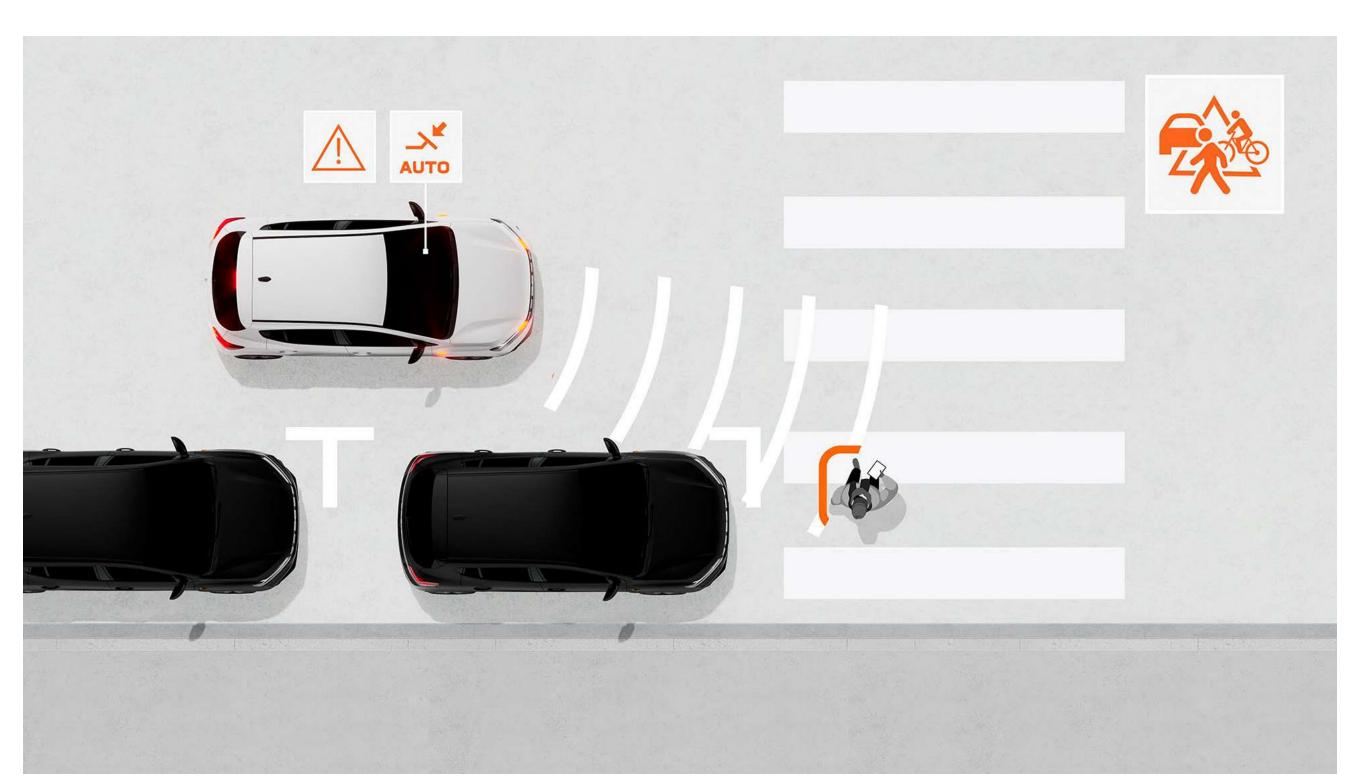

Media Display\*

\*Available from expression.

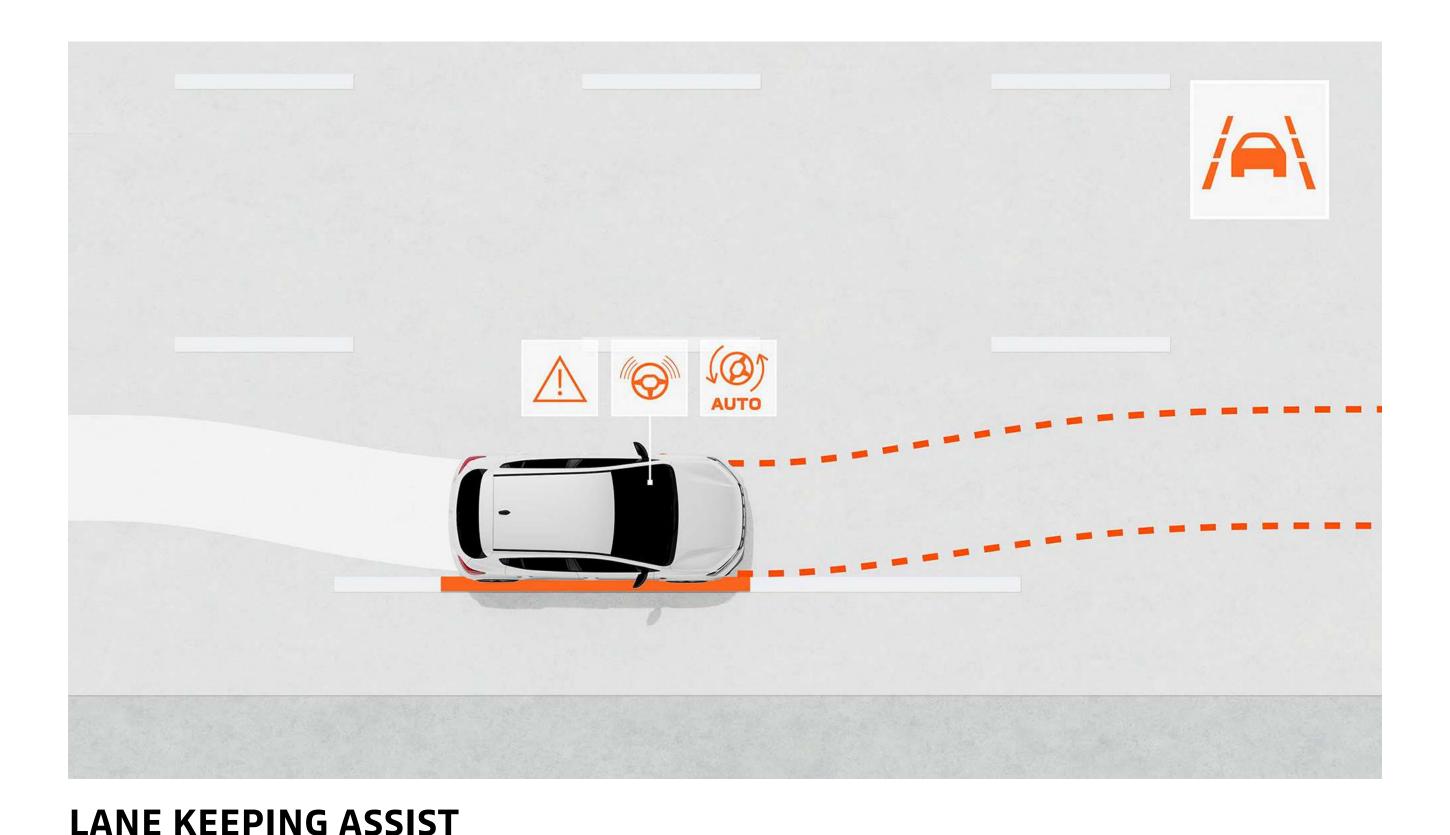

# SAFETY ALL THE TIME

At Dacia, safety has always been at the heart of our concerns. Built on the latest platform designed for our vehicles, Dacia Sandero has a reinforced body structure and new-generation assistance systems. Thanks to the My Safety button, you can deactivate some of these aids at each start-up as well as when the vehicle is running. With Dacia, drive with peace of mind.

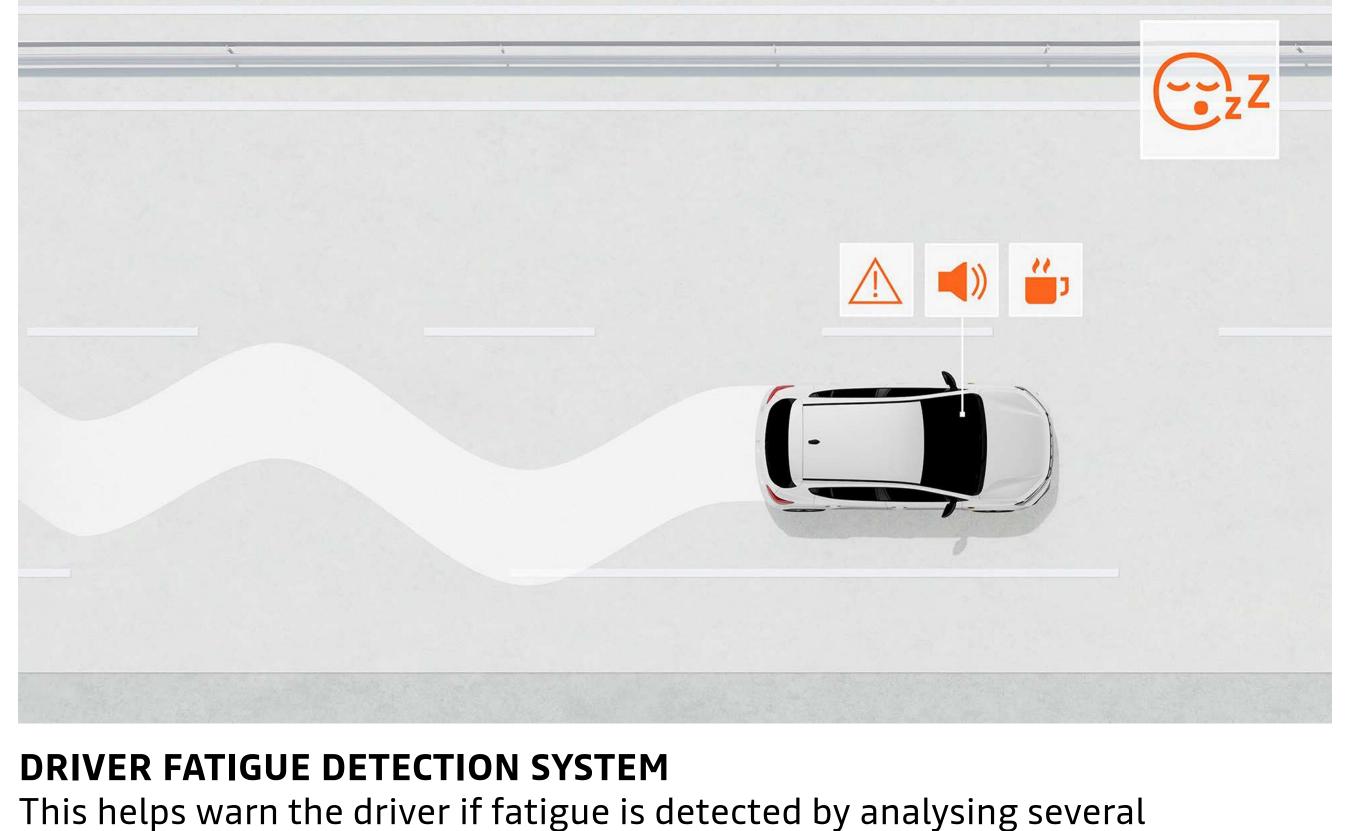

# **AUTOMATIC EMERGENCY BRAKING WITH PEDESTRIAN/CYCLIST DETECTION**

This system prevents the risk of frontal collisions involving other vehicles, pedestrians or cyclists straight ahead and at junctions. It alerts the driver and can automatically brake the vehicle if necessary.

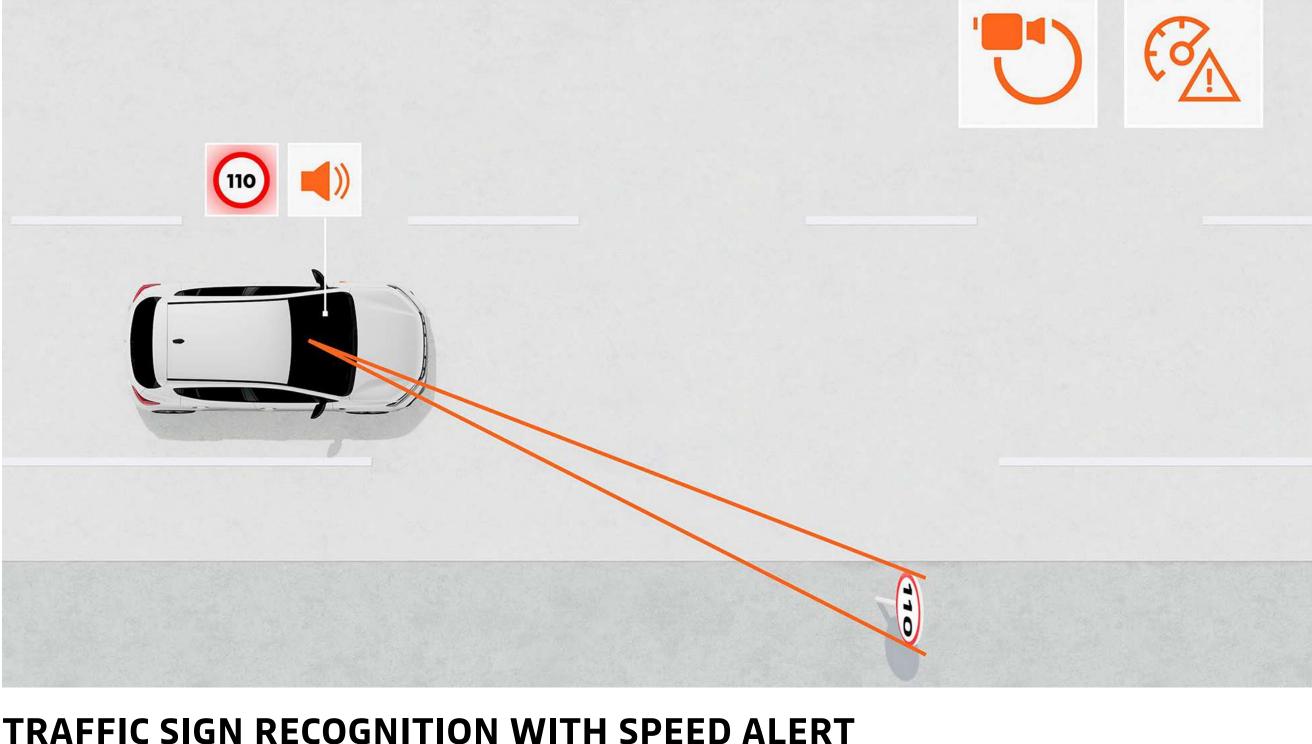

# This assistance system monitors the vehicle's path in its lane and corrects

it if necessary by automatically steering it.

# parameters – including movements of the steering wheel – to encourage

them to take a break.

This system provides a reliable real-time indication of the maximum speed on the road and warns the driver if they exceed the speed limit with visual and audible alerts (which can be disabled).
